PASSION

**O**  
ONENESS

**I**  
INTEGRITY

**S**  
SINCERITY

**E**  
EMPATHY

# Institute for Advanced Studies

## A Brief History

*1979*

Institute of Postgraduate Studies (IPS)  
was established

*2018*

IPS has been decentralised and  
Institute for Advanced Studies  
(IAS) was established to lead new  
function

*2023 onwards*

To become central body promoting  
active cultivation and dissemination  
of multidisciplinary knowledge in  
the sciences and the social science  
areas

# UM Vision: A Global University Impacting the World

# Welcome, Students!

## Dean's Message

*Professor Dr. Abrizah Abdullah*

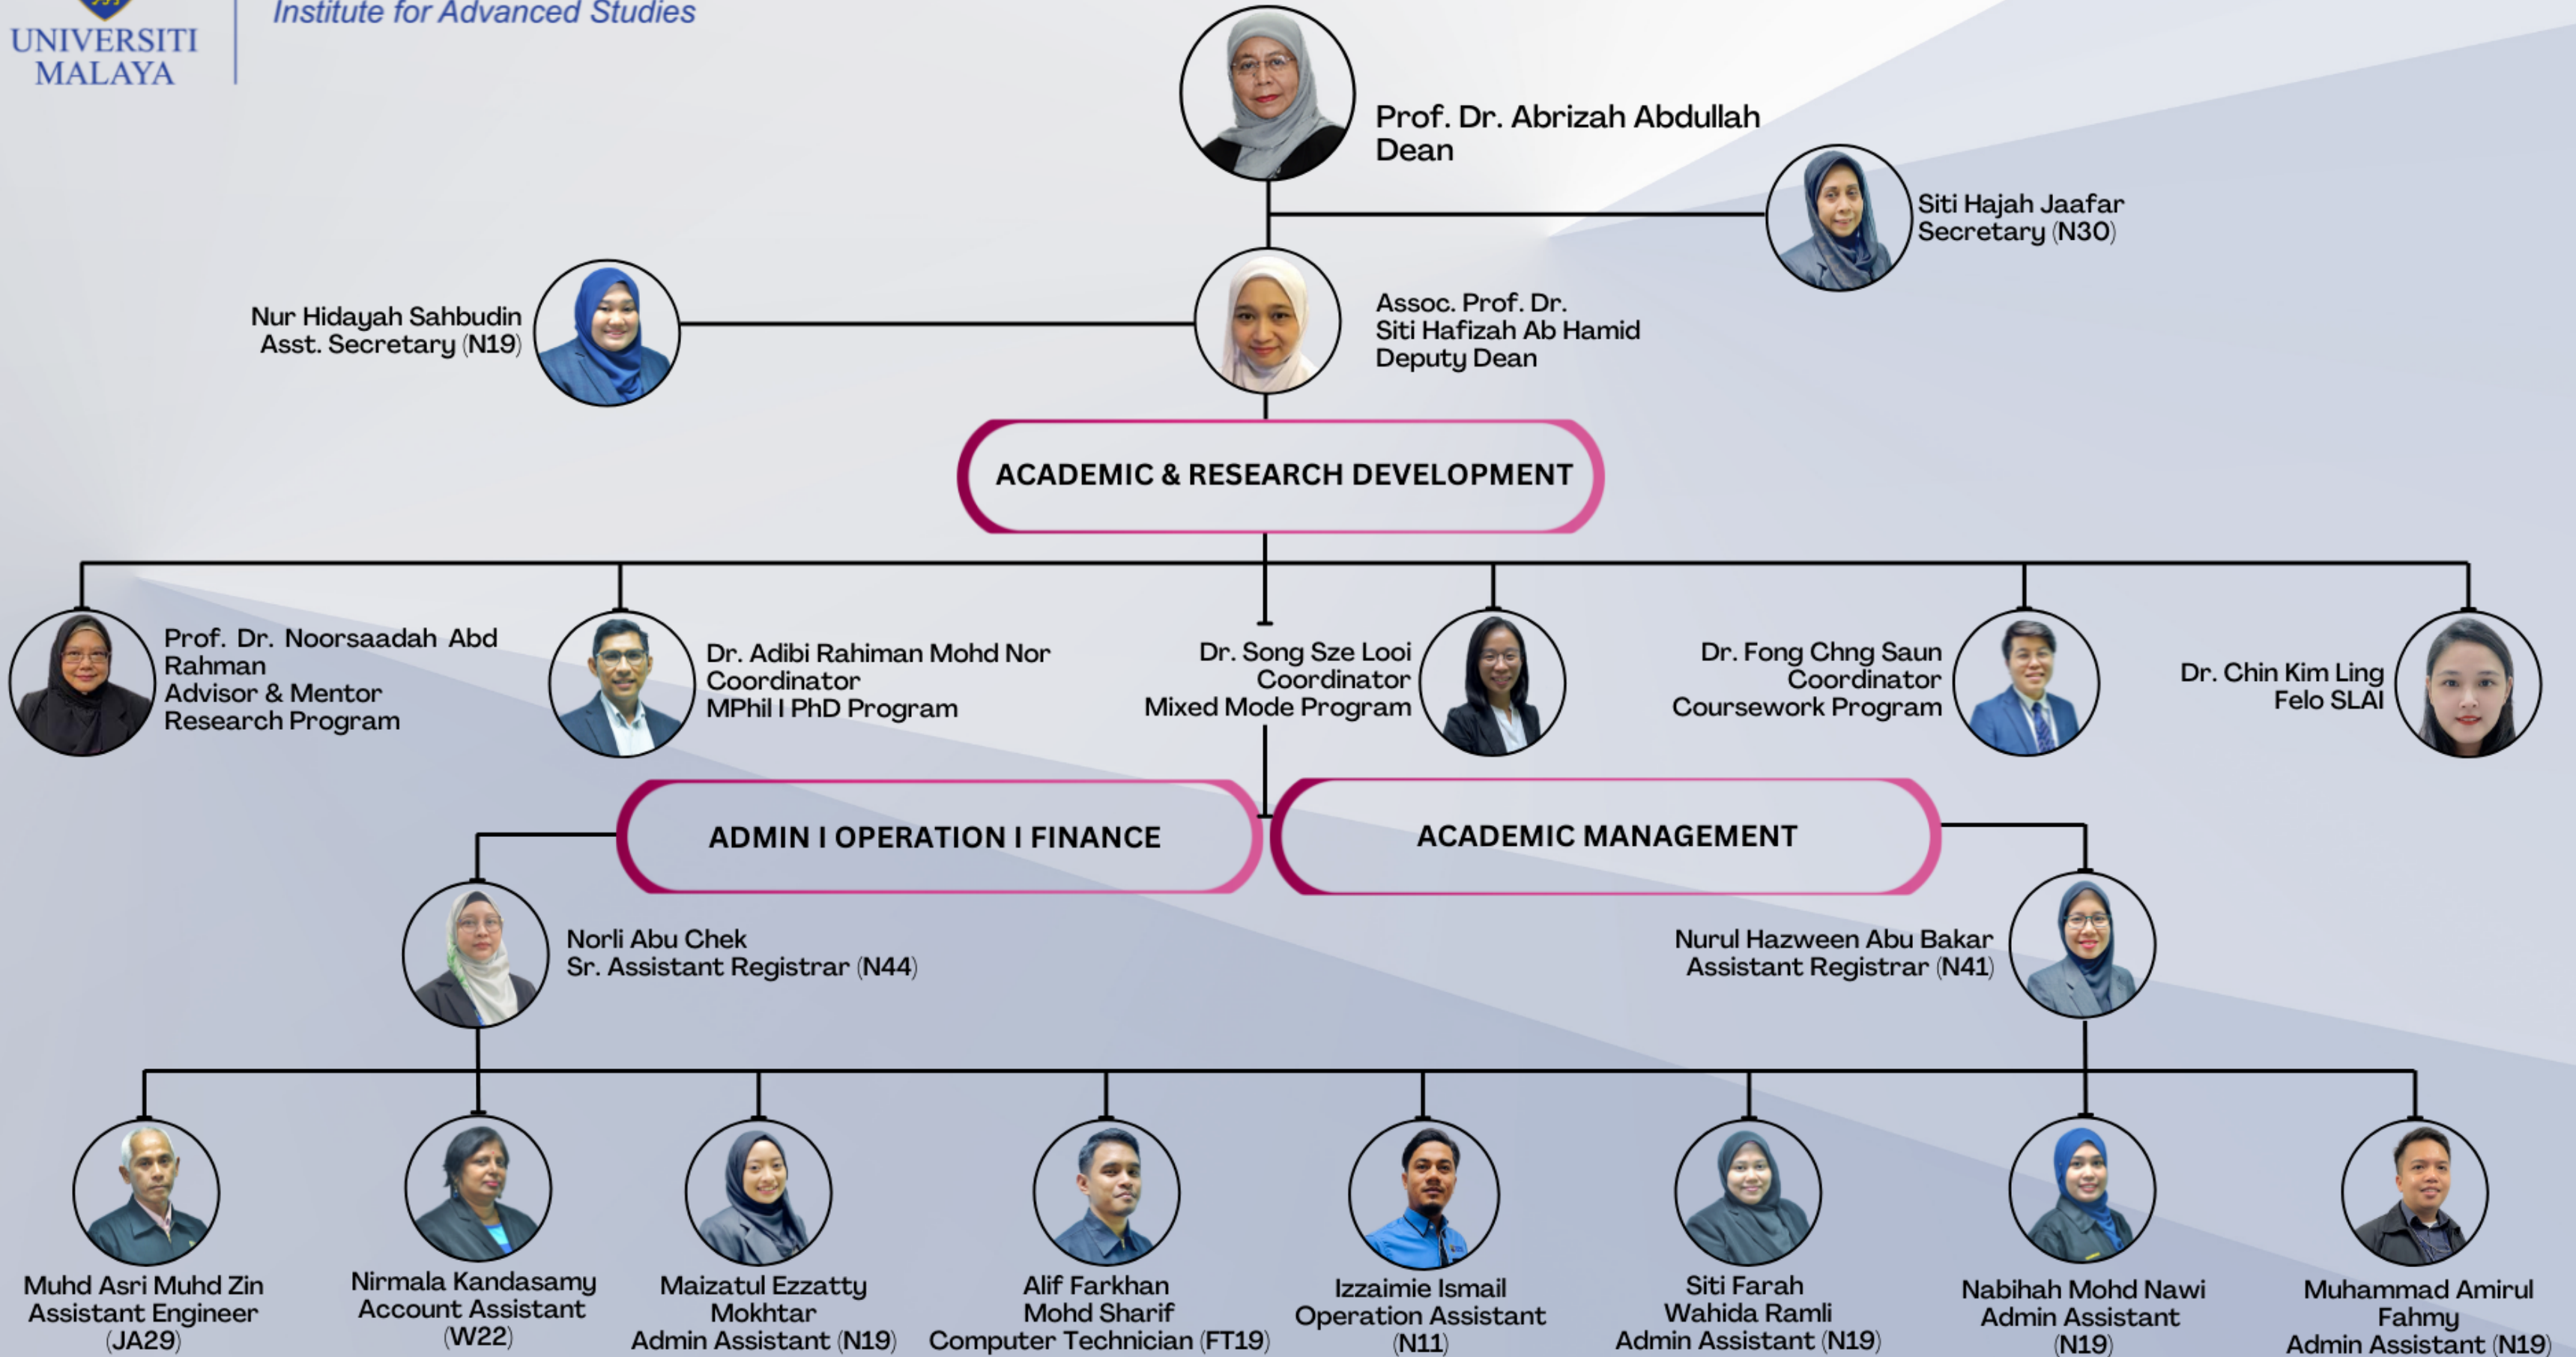

Welcome to the Institute for Advanced Studies, the hub of Universiti Malaya's multidisciplinary academic and research programmes. We endeavor to promote research aligned with the university's strategic guiding principles and to foster multidisciplinary research ideas in key areas of sciences, social sciences, and humanities. We also provide anyone the opportunity to pursue stackable credentials to complete an interdisciplinary Master's degree programme.

Our Institute is especially dedicated to the advancement of early career researchers (the Professors and Laureate of tomorrow) and the creation of opportunities, networking, and collaborations. Our Institute incorporates national emeriti and international visiting scholars into the University's academic community.

Our students will have the opportunity to work with academics, administrative personnel, and other students who are enthusiastic, perceptive, and optimistic about achieving the institute's vision, mission, and goals. Effective student services and facilities committed to providing a platform for the sharing and exchange of ideas will enhance the students' journey. We are fully dedicated to the success and well-being of our students. This handbook is intended to guide postgraduate students on the academic requirements and to serve as a quick reference for the IAS support services. In addition, the handbook provides online links to the postgraduate supervision policy and other sources of information relating to the dissertation/thesis examination procedure. We anticipate that you will be a member of the community of scientists and scholars who are driven by your intellectual curiosity and contribute to sustainable socio-economic and environmental development. I wish you tremendous luck on your research adventure on behalf of the IAS!

# ORGANISATION CHART

is headed by a Dean, assisted by Deputy Dean, one Programme Advisor and Mentor, three Programme Coordinators, a Senior Assistant Registrar and an Assistant Registrar.

## *Vision*

Our vision is for IAS to be the central body promoting active cultivation and dissemination of multidisciplinary knowledge in the sciences and the social science areas

## *Background*

Institute for Advanced Studies (IAS) is Malaysia's first postgraduate and advanced research institution within a university providing facilities for multidisciplinary studies. Since its inception in 1979, the IAS has been offering an extensive range of graduate research opportunities. Currently, with around 400 postgraduate students, the number of postgraduate candidates has been increasing significantly over the years. IAS is highly recognized for conducting leading edge research in key areas of sciences, social sciences and humanities. IAS proudly upholds the traditions and standards of excellence in teaching and research by providing effective and efficient student services, opportunities and a platform for the sharing & shaping of ideas. Candidates will be trained and supervised by distinguished local and expatriate scholars from various faculties and research centres, who are instrumental in founding new research niche areas. IAS is currently offering multidisciplinary postgraduate programmes (by research) and niche area programmes jointly coordinated by the Higher Education Center of Excellence (HICOE) and Universiti Malaya Centre of Excellence (UMCoE).

# IAS Core Function

1

## Multidisciplinary Programmes

Develop, offer and manage multidisciplinary and/or interdisciplinary programmes in co-operation with other Academic RCs.

3

## Partnership

Establish international collaborations through multidisciplinary cooperative programmes.

2

## Research-based Solution

Develop, offer and manage research training programmes leading to certification

4

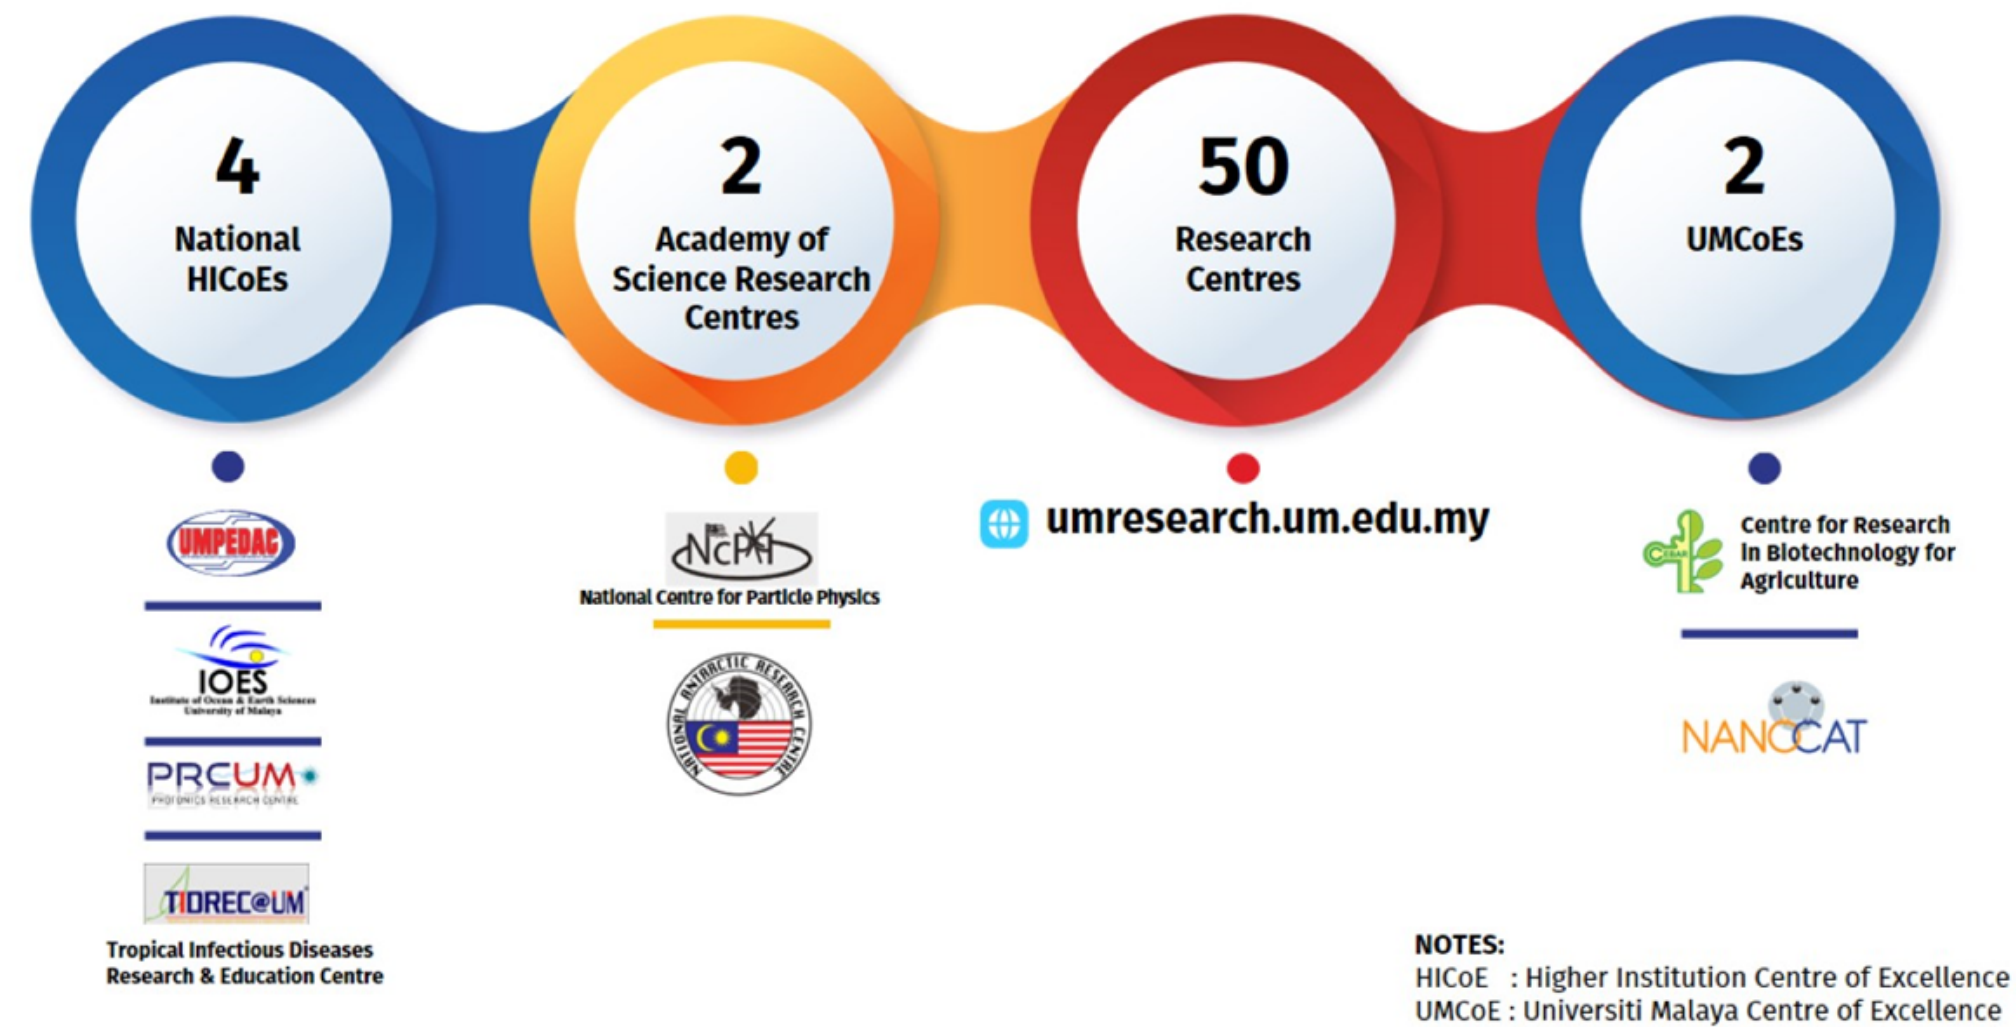

## Centre of Excellence

Develop, offer and manage academic programmes for the Universiti Malaya Centres of Excellence (CoE)

# Universiti Malaya Campus Map

# Higher Institution Centre of Excellence (HICoE)

In support of the third thrust of the National Higher Education Strategic Plan (NHESP) and moving towards gearing up the level of the country's research and development (R&D) and innovation, the Ministry of Higher Education (MoHE) finds that there is a need to recognise the potential centres of excellence (CoEs) in Higher Education Institutions (HEIs) in order to further leap them towards internationalisation. The recognition of HICoE by MOHE is to identify the best of the best CoE in HEIs at the national level.

The first evaluation exercise of HICoE was undertaken in 2008. From 142 applications, 6 CoEs in 5 public HEIs have met the stringent requirements. With the approval of the Cabinet, on the recommendation of MoHE, the approved CoEs were formally designated to be HICoE on 30th October 2009. The efforts of identifying and acknowledging the achievement of CoEs in HEIs will encourage them to work towards becoming a global leader in their research niche areas. Thus, HICoE will be supported and facilitated by MoHE so that they will become the focused vehicles that will drive the R&D and innovation agenda, particularly in fundamental research, as well as contributing to human capital development.

# CoE Directors

Teaching staff is of central importance at our faculty. Under the leadership of our CoE Directors, would ensure quality higher education rests upon academic staff's knowledge, skills, competencies, abilities, attitudes, and work ethics, irrespective of status ranging from a lecturer, senior lecturer, associate professor, professor to a distinguished professor. As a result, we have high quality and well-motivated academicians, together with a supportive intellectual, innovative and professional culture.

The background image shows a large, modern university building with a prominent entrance. Above the entrance is a crest featuring a shield with a yellow sun, a red lion, and a blue lion. Below the crest, the words "DEWAN TUNKU CANSOLOR" are inscribed on a concrete structure. A large number of students are walking along a paved path in front of the building. Some students are wearing hijabs, and others are in casual attire. The overall scene is a busy university environment.

## *Student Enrolment*

---

Our academic programmes are globally recognised and accredited. We offer multidisciplinary and niche area programmes jointly coordinated by the Higher Education Center of Excellence (HICoE) and the University of Malaya Centre of Excellence (UMCoE).

# CURRENT STUDENT ENROLMENT

Semester 1 2022/2023

- *Doctor of Philosophy : 215*
- *Master of Philosophy : 205*

PhD  
51.2%

MPhil  
48.8%

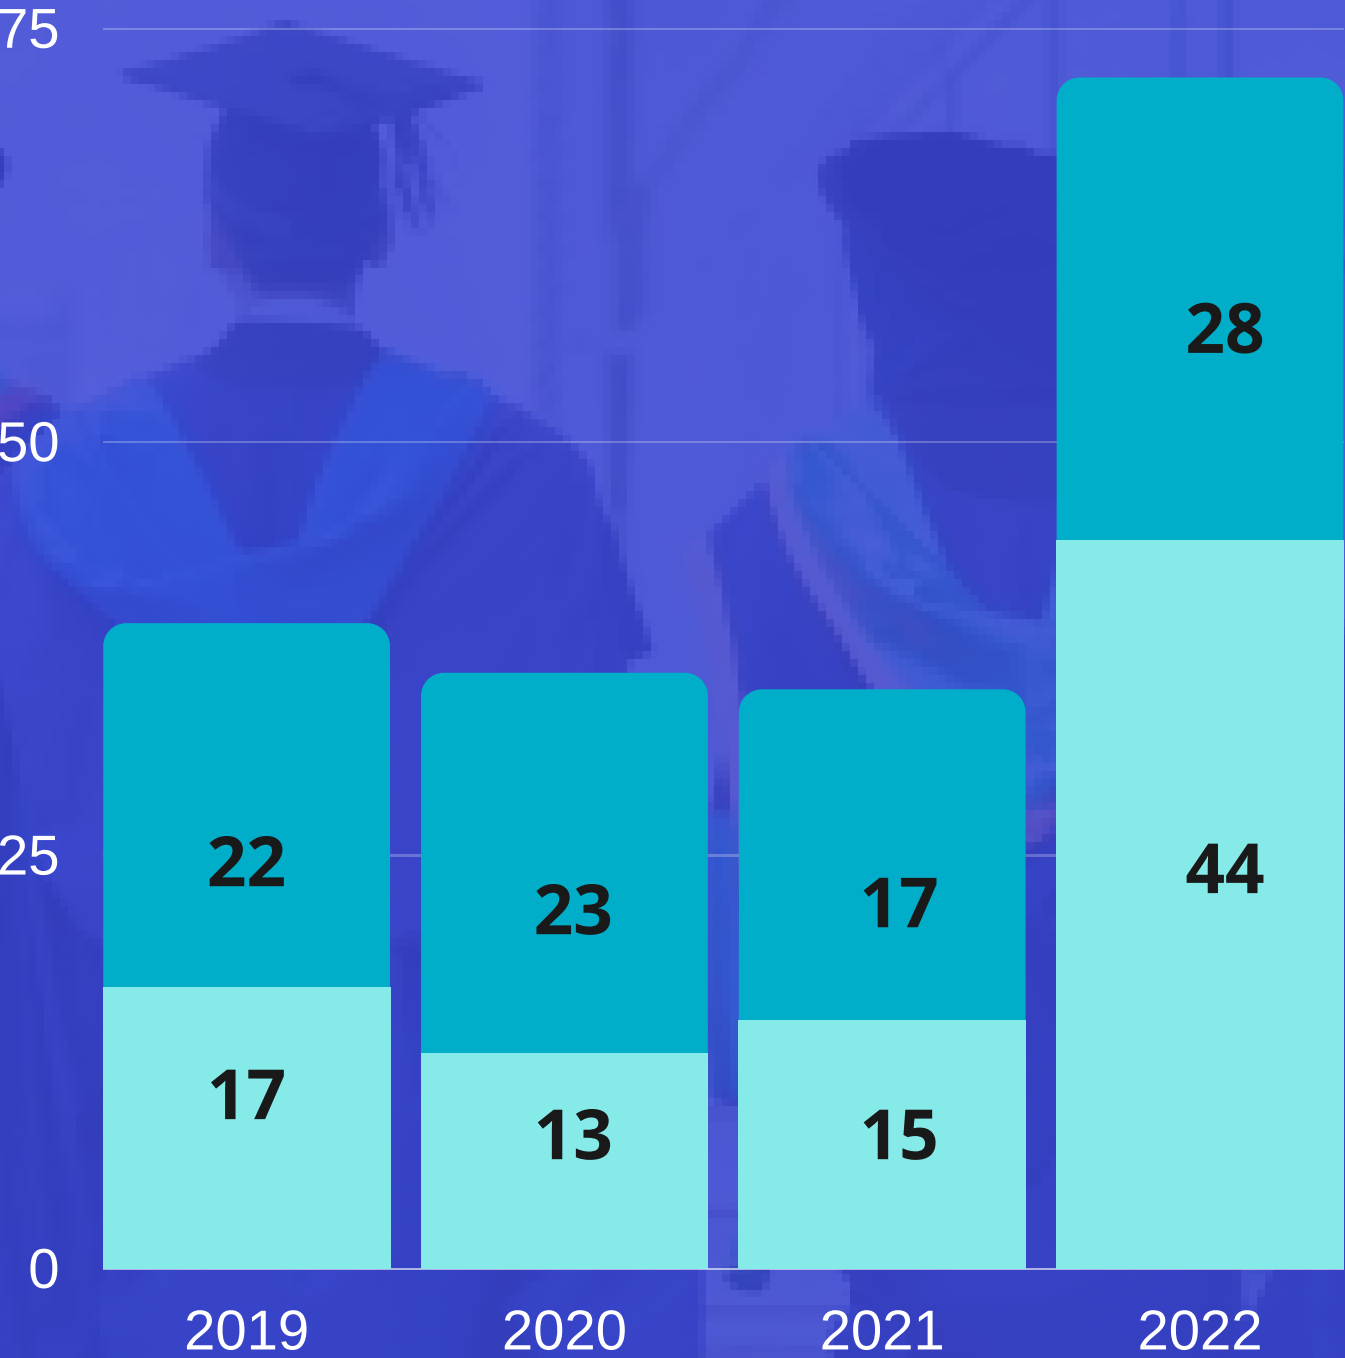

# NUMBER OF COMPLETION (GRADUATES)

2019: 39

2020: 36

2021: 32

2022: 72

● Doctor of Philosophy

● Master of Philosophy

## Doctor of Philosophy (PhD)

The goal of Doctor of Philosophy (PhD) programme is to produce scholars who can lead the development and dissemination of knowledge as leader in research and teaching as well as services for the society.

## Master of Philosophy (MPhil)

The goal of Master of Philosophy (MPhil) is to produce highly educated and skilled graduates in their own research fields, as well as engaging in scientific activities to generate new knowledge and application that fulfill the needs of an informed society.

**English Language  
Requirement**

# Master of Philosophy (MPhil)

## General Information

The Master of Philosophy (M.Phil) is conducted purely based on individual supervised research and the candidates will carry out research in their areas of specialisation. In most fields, the Masters is considered the pinnacle of academic achievement and the Master of Philosophy is testament to the candidate's academic excellence and ability. At the end of the MPhil study, a dissertation must be submitted and upon a successful defence of the dissertation, the candidate will be awarded a Master degree.

## Admission Requirements

To be admitted to a Master's programme, applicants are required to have a completed and recognised degree in a relevant discipline and to have obtained a better than average cumulative grade point average (CGPA).

The minimum requirements for admission into the MPhil programme are :

- A Bachelor's Degree (Hons.) or its equivalent in the related field\*; or
- Other qualifications approved by the University Senate.

International applicants are required to have:

- At least IELTS Band 5 (Academic) or TOEFL score of 550 (paper based) / 213 (computer based) / 80 (Internet based) if their first degree is from a university where English is not the medium of instruction.

\*Note

Preference will be given to applicants having a Bachelor's Degree with CGPA 3.0 and above or its equivalent.

Applicants having a Bachelor's Degree with CGPA of 3.7 and above can apply directly for the Doctoral of Philosophy (PhD)

## Mode of Study

Research

## Duration of Study

\*Minimum: 2 Semesters

\*Maximum: 8 Semesters

## Programme Structure

- The Master of Philosophy Programme leads to the submission of a thesis.
- Candidates are required to take Research Methodology course in the first year of study.

## Intake

Application and admission are open throughout the year.

\*Note

The minimum and maximum duration of a programme of study according to the mode of study may vary from the stated above and is subjected to the approval by the Ministry of Education Malaysia.

# Master of Philosophy (MPhil) - Cont...

## Candidature Requirements

1. pass at least 3 credits of Advanced Research Methodology course (HVX8001) not later than the second (2nd) semester of candidature;
2. fulfil attendance requirements for the University Bahasa Malaysia course not later than the second (2nd) semester of candidature; (for international candidate only)
3. present your research proposal at Proposal Defence not later than the second (2nd) semester of candidature;
4. present your research progress at Candidature Defence not later than the third (3rd) semester of candidature;
5. show proof of acceptance for publication as per the following (according to the criteria set in the publication guidelines), prior to graduation:

- at least one (1) article in journals indexed by Thomson Reuters Web of Science (WoS) or;
- at least one (1) book published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List or by Universiti Malaya Press or Dewan Bahasa dan Pustaka or any publishers recognised by the Faculty;

or;

- at least one (1) publication in Category A or B refereed journals, or book chapters as follows:
  - Articles in Category A journals:  
Journals indexed in the Scopus citation database
  - Articles in Category B journals:  
Journals published by University or scholarly publishers or listed in MyJurnal (Malaysian Journal Management System). (List of Category B journals must be listed and recognised by the Faculty)
  - Book chapters in different books:  
Book chapters published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List, or by Universiti Malaya Press or Dewan Bahasa dan Pustaka or any publishers listed and recognised by the Faculty. Two (2) book chapters in different books are equivalent to one (1) publication;

6. fulfil the residential requirement for at least one (1) semester.

## Graduate on Time (Schedule)

4 Semesters / 24 months

# Programme Learning Outcome (PLO)

PLO 1 : Demonstrate a systematic understanding of knowledge by identifying problems and insights of the study in the field of research conducted.

PLO 2 : Apply appropriate research methodology and design.

PLO 3 : Publish knowledge in the field of research conducted to benefit the community, as well as sensitive to the role and responsibility of supporting needs of informed society.

PLO 4 : Conduct research with minimal supervision and adhere to legal, ethical and code of professional practice.

PLO 5 : Communicate research findings effectively, orally and in writing, to audiences and scientific publication in their respective fields of research.

PLO 6 : Evaluate research findings using scientific methods and critical thinking skills.

PLO 7 : Engage in information management and continuous learning activities.

# HMX7001 Research Methodology Course

## Course Description

A MPhil structure programme in IAS required the MPhil candidates to pass one compulsory course which is the Research Methodology (HMX7001) not later than second semester of the candidature. In this course, the candidates are assessed through summative assessments such as assignment reports, quizzes, and presentations. Under this course, the students are guided through a series of topics that emphasize hands-on applications. The course provides a forum for students to learn about expectations of a Master thesis, using resources for research, applying for research funding, format for thesis writing, structuring a research design, and managing their research and supervisors. The students would also acquire skills on how to avoid plagiarism, techniques to write a literature review critically, and preparing an effective research proposal.

## Learning Outcomes

At the end of the course, students are able to:

1. Develop problem statements and research questions or research hypotheses.
2. Critically analyze literature reviews based on authentic sources of information in a particular field.
3. Develop appropriate research methodologies to be used for research in a particular field.
4. Write a research proposal paper.

## Evaluation & Weightage

100 % (Continuous Assessment)

MPhil candidates are required to pass a research methodology course (which must encompass the broad approaches, methods and analyses in the field or discipline). Beginning of academic session 2019/2020, the research methodology course is graded (pass: B and above) and the candidate can view the course grade in the academic transcript. MPhil candidates must adhere to the programme requirements stated in the offer letter.

# HMX7002

# Dissertation

The MPhil thesis required the candidate to conduct research activities such as data collection, development, experiment, synthesize, analyse, manage information, and report quantitative data. MPhil programme with multidisciplinary domain incorporates quantitative and, in some cases, qualitative methods and obtained from a designed experimental framework comprising of field work, laboratory experiments, data interpretation which is used to gauge the ability of the student to apply the knowledge, skills and training gained in the MPhil programme.

A Master thesis required to be submitted by the candidate at the end of the study based on the guidelines for preparing the dissertation / thesis. The Master thesis must include a well-written report that provides a detailed description of the research work, reviewing of existing literature on the topic, process and output. General guidelines for the submission of theses can be referred to the Guidelines For The Preparation Of Research Project, Dissertation And Thesis 2017 (available on IAS website).

# Graduate on Time ( GOT)

## Master Candidates

# MPhil to PhD Conversion

## Candidacy Status Conversion

Candidates for a Master of Philosophy (MPhil) programme by full-time research may be considered for the conversion of their candidacy status to a Doctor of Philosophy (PhD) programme by full-time research subject to the following conditions:

- (a) The application period for change of candidacy status is between twelve (12) to fifteen (15) months from the date of commencement of registration of the MPhil program of study;
- (b) Submit a written application to the Supervisor using the form as in Appendix 1;
- (c) Submit one (1) research report not exceeding 6,000 words on:
  - (i) Introduction and scope of research;
  - (ii) Research objectives;
  - (iii) Research methods;
  - (iv) Research plans to lead to the PhD programmes stage.
- (d) Submit research results during the study period of the MPhil programme, namely:
  - (i) one journal paper accepted for publication and one seminar presentation at the university, national or international level; OR

# MPhil to PhD Conversion - Cont...

(ii) a patent application that is pending or has been approved and a seminar presentation at the university, national or international level;

(2) A full-time candidate must present his research results in one (1) seminar in front of a panel of evaluators consisting of two (2) experts from within or outside the University in related fields as determined by PTj.

(3) The period of nomination for the MPhil programme is taken into account in the period of study of the PhD programme by research.

(4) A full-time candidate who is approved for a change of candidacy status is required to register for a PhD programme by research not later than the second lecture week of the following semester.

(5) A full-time candidate who is approved for a change of candidacy status do not need to take the Advanced Research Methodology course at the PhD programme level.

(6) A full-time candidate who is approved for a change of candidacy status shall meet the requirements of the graduation requirements including the publication requirements for the PhD programme by research.

# Doctor of Philosophy (PhD)

## General Information

The Doctor of Philosophy (PhD) is the highest degree awarded by the University.

It requires the conduct of an original research project, writing and defense of a thesis.

## Admission Requirements

To be admitted to a Doctorate 's programme, applicants are required to have a completed and recognized degree in a relevant discipline and to have obtained a better than average cumulative grade point average (CGPA).

The minimum requirements for admission into the PhD programme are :

- a Bachelor's degree in the relevant field; and
- a Master's degree in the relevant field; or
- Other qualifications approved by the University Senate.

Applicant having a Bachelor's degree with a CGPA of 3.7 and above, may also be considered for direct admission to the PhD programme.

International applicants are required to have:

- At least IELTS Band 5 (Academic) or TOEFL score of 550 (paper based) / 213 (computer based) / 80 (Internet based) if their first degree is from a university where English is not the medium of instruction.

## Mode of Study

Research

## Duration of Study

\*Minimum: 4 Semesters

\*Maximum: 12 Semesters

## Programme Structure

- The PhD degree is offered by research mode only leading to the submission of a thesis.
- Candidates are required to take Advanced Research Methodology course during the first year of studies.

## Intake

Application and admission are open throughout the year.

\*Note

The minimum and maximum duration of a programme of study according to the mode of study may vary from the stated above and is subjected to the approval by the Ministry of Education Malaysia.

# Doctor of Philosophy (PhD) - Cont...

## Candidature Requirements

1. pass at least 3 credits of Research Methodology Course not later than the second (2nd) semester of candidature;
2. fulfil attendance requirements for the University Bahasa Malaysia course not later than the second (2nd) semester of candidature; (for international candidate only)
3. present your research proposal at Proposal Defence not later than the second (2nd) semester of candidature;
4. present your research progress at PhD Confirmation Defence not later than the third (3rd) semester of candidature; (for Fast track candidate only)
5. present your research progress at Candidature Defence not later than the fifth (5th) semester of candidature;
6. present your research progress at Thesis Seminar before the submission of thesis for examination;
7. show proof of acceptance for publication as per the following (according to the criteria set in the publication guidelines), prior to graduation:

- at least two (2) articles in journals indexed by Thomson Reuters Web of Science (WoS) or;

- at least two (2) book published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List or by Universiti Malaya Press or Dewan Bahasa dan Pustaka or any publishers recognised by the Faculty;

or;

- at least two (2) publication in Category A or B refereed journals, or book chapters as follows:

- Articles in Category A journals:

Journals indexed in the Scopus citation database

- Articles in Category B journals:

Journals published by University or scholarly publishers or listed in MyJurnal (Malaysian Journal Management System). (List of Category B journals must be listed and recognized by the Faculty)

- Book chapters in different books:

Book chapters published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List, or by Universiti Malaya Press or Dewan Bahasa dan Pustaka or any publishers listed and recognised by the Faculty. Two (2) book chapters in different books are equivalent to one (1) publication;

8. fulfil the residential requirement for at least one (1) semester.

## Graduate on Time (Schedule)

7 Semesters / 42 months

# Programme Learning Outcome (PLO)

PLO 1 : Synthesize and contribute knowledge in their respective field of research.

PLO 2 : Adapt practical skills and appropriate research methods towards innovative research.

PLO 3 : Disseminate the importance and implications of research in national and international context.

PLO 4 : Conduct independent research and adhere to legal, ethical and / or code of professional practice.

PLO 5: Demonstrate leadership quality through effective communication and collaboration among researchers and stakeholders.

PLO 6 : Address research issues using critical thinking, problem solving and / or appropriate scientific skills.

PLO 7 : Integrate information for lifelong learning.

# HVX8001 Advanced Research Methodology Course

## Course Description

Topics included are: nature of research in the selected research topics; major considerations and tasks in scientific research; selecting a research project; project planning, tools and techniques for planning; review of literature; selection of research methods - qualitative, quantitative or mixed methods; writing a research proposal; data analysis and presentation of results/writing the research report.

## Learning Outcomes

At the end of the course, students are able to:

1. Demonstrate extensive and comprehensive in theories, concepts, framework and research highlights and issues in selected research topics.
2. Apply appropriate research methods and analytical techniques in selected research topics.
3. Conduct original research that contributes importantly to the selected of research in ethically and professionally.
4. Evaluate achievement of research objectives, research questions/hypotheses and research findings critically, through the evaluation of conceptual and methodology and the importance of contributing to knowledge in a particular field.
5. Write in appropriate register and academic format and use recommended reference and citation styles.

## Evaluation & Weightage

100 % (Continuous Assessment)

# HVX8002

## Thesis

The PhD thesis required the candidate to conduct research activities such as data collection, development, experiment, synthesize, analyse, manage information, and report quantitative data. PhD programme with multidisciplinary domain incorporates quantitative and, in some cases, qualitative methods and obtained from a designed experimental framework comprising of field work, laboratory experiments, data interpretation which is used to gauge the ability of the student to apply the knowledge, skills and training gained in the PhD programme.

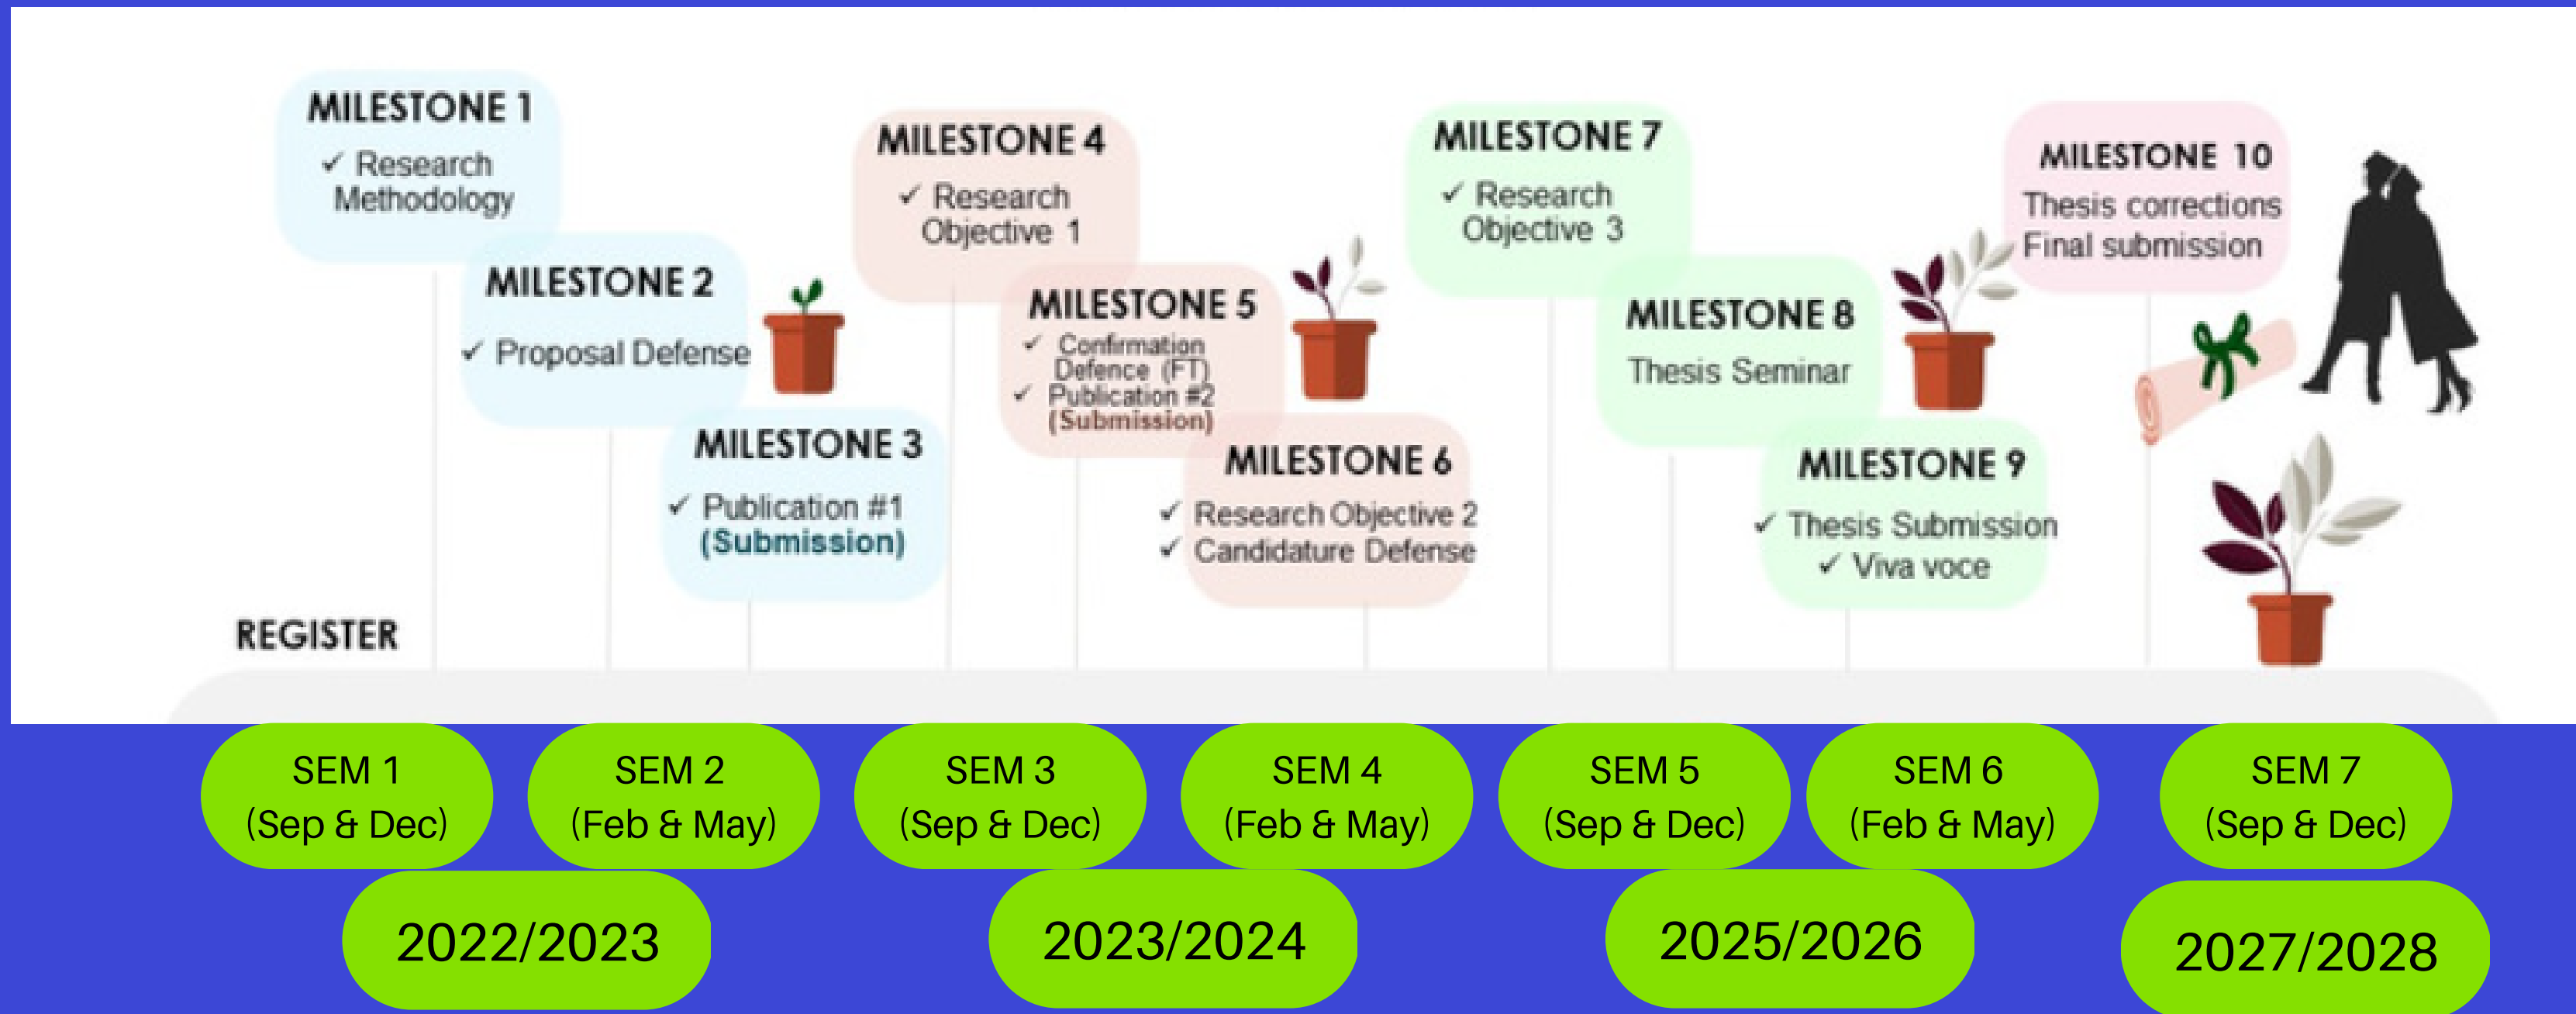

Assessment of the PhD programme begins with a research proposal. The research project must include a condensed, well-written report that provides a detailed description of the proposed research project, comprising of introduction, literature review, methodology, research objective, research questions, justification and significance of research along with its respective references. Generally, students will meet their supervisor at the beginning of their research works when formulating framework, instrument, data analysis and draft report. The candidate requires to defend their research proposal during a Proposal Defence (PD) in the second semester after completed an Advanced Research Methodology course (HVX8001), followed by a Candidature Defence (CD) during the fourth or fifth semester and thesis seminar before the viva-voce presentation.

A PhD thesis required to be submitted by the candidate at the end of the study based on the guidelines for preparing the dissertation / thesis. The PhD thesis must include a well-written report that provides a detailed description of the research work, reviewing of existing literature on the topic, process and output. General guidelines for the submission of theses can be referred to the Guidelines For The Preparation Of Research Project, Dissertation And Thesis 2021 (available on IAS website).

# Graduate on Time ( GOT)

## Doctoral Candidates

# Seminar Presentation Guidelines (MPhil & PhD)

The conduct of a candidature seminar refers to the periodic monitoring process of a candidate's research progress (for example, through progress reports or presentation of research proposals) to evaluate knowledge, critical thinking, practical, technical, professional, scientific, and problem-solving skills. The candidate's evaluation process is through a Panel of Assessors appointed by the Responsibility Centre (RC).

The candidature seminar consists of the following:

- (a) Proposal Defence
- (b) Confirmation Defence
- (c) Candidature Defence
- (d) Thesis Seminar

The Head of the RC is responsible for ensuring that this procedure is followed during the conduct of the candidature seminar.

Anyone involved in the conduct of the candidature seminar must adhere to this procedure.

# Application for Thesis Seminar Presentation (PhD Candidate)

OPTION **1**

{OR}

OPTION **2**

Thesis  
Seminar  
Confirmation

## CONFERENCE PRESENTATION

1. The candidate has presented (orally) research findings at local/international conference **(within 6 months before thesis submission).**
2. The candidate provides the proof of conference presentation (certificate of presentation / appreciation, etc.) to DD's office.

## THESIS SEMINAR PRESENTATION

1. Supervisor nominates a Chairperson (senior lecturer and above) and ONE assessor (postdoc or RO is NOT allowed).
2. Supervisor(s) will arrange candidate's thesis seminar with the panel members at their convenient time.
3. Supervisor(s) send the thesis seminar evaluation form together with the attendance list conducted by the candidate to Deputy Dean's office.

## DEPUTY DEAN OFFICE

1. The DD's Office will send a confirmation letter of thesis seminar to the candidate and supervisors.

# Application for Proposal / Confirmation / Candidature Defence

*All applications must be submitted to Deputy Dean's office before 15<sup>th</sup> of the month\**

*\*Applications received after the stipulated date will be carried forward to the following month*

Proposal Defense, Confirmation Defense, Candidature Defense and Thesis Seminar

## STEP 1

### CANDIDATE / SUPERVISOR

1. The **Candidate** submits a softcopy of the report\* (PDF/Word format) via email.
2. The **Supervisor** nominates two assessors (postdoc or RO is not allowed) with complete details (name, faculty and email).

*\*refer to IAS website for the format of PD/CD report*

## STEP 2

### DEPUTY DEAN OFFICE

1. The DD's Office will send an invitation email to panel members two weeks before the online presentation.
2. Once the panel members have agreed on the suggested date, Google Meet link will be sent to the panel members, supervisors and candidate.

## STEP 3

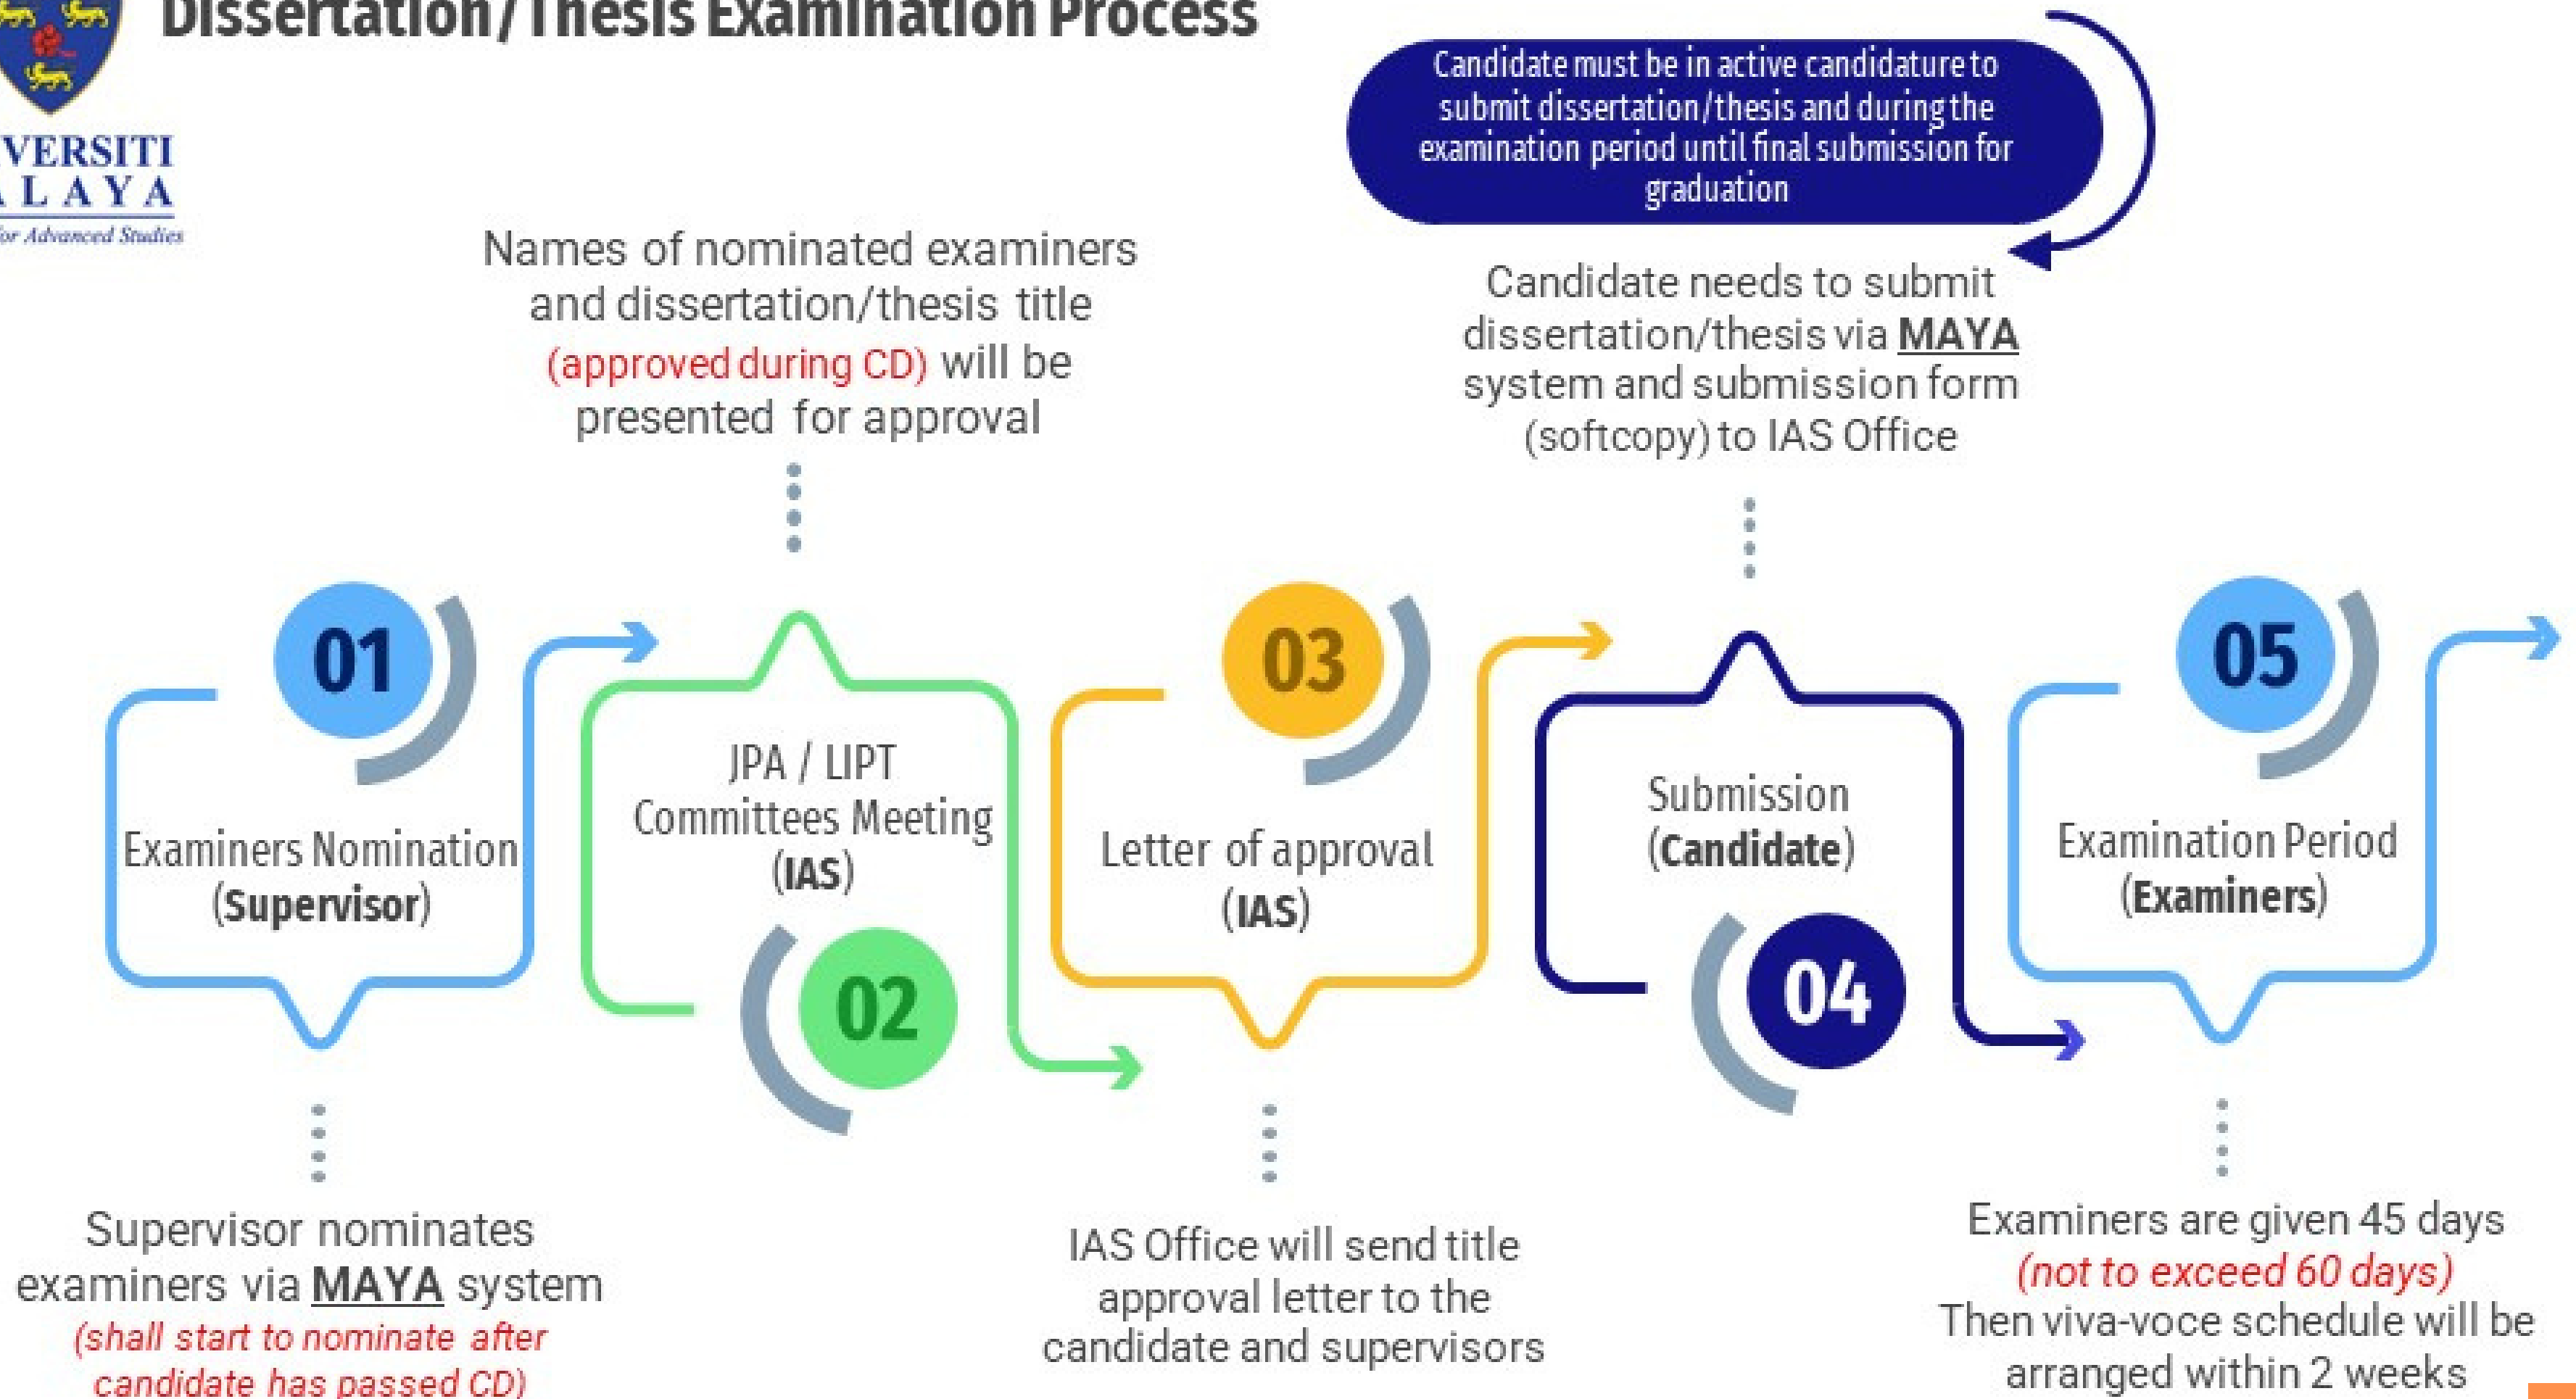

### SEMINAR & RESULT ANNOUNCEMENT

1. Seminar will be conducted online using Google Meet platform (unless a physical presentation is requested by the panel members or supervisors).
2. The DD's Office will send the result of presentation to the candidate and supervisors after the seminar presentation.

# Plagiarism

The University views plagiarism as a serious offence. Hence, in an effort to ensure the quality and originality of research and publication, students are expected to adhere to the rules and guideline in the Handbook on how to avoid plagiarism. The University encourages all written work to be screened for plagiarism using the Turnitin software. Depending on the extent of plagiarism, students found guilty of this academic misconduct will be subjected to disciplinary action which ranges from a warning to expulsion from the University. All UM students have a Turnitin account through the UM Library account.

The plagiarism policy is clearly stated in the UMGSB Research Project Handbook. Plagiarism is a serious academic offence that is defined as being liars, insecure, dishonest and disrespectful in research practice. Plagiarism occurs when the idea of another person is taken without reference to its source.

To avoid plagiarism, Final Report submitted by the student for the purposes of examination shall NOT exceed 25% of the total similarity index as provided by Turnitin. The supervisor should verify and endorse the Turnitin report to be submitted together with the Final Report for examination.

In case plagiarism is detected in a Research Project sent for examination to the assessor, Special Committee will be setup to investigate and hearings will be conducted to decide on the disciplinary action to be taken against the student. Disciplinary action could range from minimum (repeat the Research Project with a new topic) to maximum (termination of the student from the Master's degree). Should second offence is detected, the student will be terminated automatically from the Master's degree programme.

# Your Research Journey:step-by-step

1

## Consider

**Consider** which research degree best suits your ambitions.

2

## Review

**Review** our research groups and academic staff profiles online and consider whether their specialisms are a good intellectual fit with yours

3

## Refine

**Refine** your MPhil/PhD research idea/project title so that it's clear to the potential academic school or research institute what area you are hoping to specialise in. Or search for a pre-defined MPhil/PhD studentship project.

4

## Check

**Check** if you need to either contact a potential supervisor first or submit a research proposal without identifying a supervisor (for non-funded PhDs).

5

## Apply

**Apply** online. We accept applications throughout the year for non-funded PhDs. Funded PhDs (or studentships) have specific closing dates.

# IAS Facilities @UMPEDAC

## A Brief Background About The Universiti Malaya Energy Dedicated Advanced Centre (UMPEDAC)

In 2000, UMPEDAC was set up by a small group of researchers as Centre of Research for Power Electronics, Automation, Control, and Communications. In 2004, this research centre was officially established under the Centre for Research of the Faculty of Engineering (CReFE) as University of Malaya's Power Electronics, Drives, Automation, and Control Centre. In conjunction with the development of the niche, experts and infrastructures, on 28 July 2011, the name was again changed to UM Power Energy Dedicated Advanced Centre, retaining the UMPEDAC acronym.

# IAS Facilities @PRCUM

## A Brief Background About The Photonic Research Centre Universiti Malaya (PRCUM)

PRCUM was established in the year 1979 as Laser Laboratory by Prof. Tan Beng Cheok. In conducting laser research, the laboratory employs multiple lasers and associated optical systems. Lasers available are Ruby lasers, Nd:YAG lasers, Ti:Sapphire lasers, diode lasers as well as liquid dye and polymer based dye lasers. In addition to these, considerable efforts are spent in the development of gas lasers such as CO<sub>2</sub>, N<sub>2</sub> and excimer lasers. Most of these lasers were developed in house, with the collaboration of students supervised by Low Kum Sang and Harith Ahmad, the two lead researchers at that time.

# IAS Facilities @IOES

## A Brief Background About The Institute of Ocean and Earth Sciences (IOES)

The Institute of Ocean and Earth Sciences (IOES) University of Malaya has its roots in the University of Malaya Maritime Research Centre (UMMReC) which was established in 2003 in response to the national call for more concerted research in the marine sciences, considering the importance of Malaysia's abundant marine heritage as well as to coordinate and lead all research activities and consultancies in marine and maritime research at the University of Malaya. The Institute of Ocean and Earth Sciences (IOES), University of Malaya, was approved by the University of Malaya Management on 23 October 2007, and officially launched on 17 January 2008.

# IAS Facilities @CEBAR

## A Brief Background About The Centre for Research in Biotechnology for Agriculture (CEBAR)

The Centre for Research in Biotechnology for Agriculture (CEBAR) is a Centre of Research Excellence at the University of Malaya (UM). CEBAR pursues multidisciplinary research leveraging Malaysia's mega biodiversity to support a sustainable agricultural bioeconomy. CEBAR was established in 2005 in recognition of the need to strengthen the agricultural biosecurity scientific capacity of Malaysia.

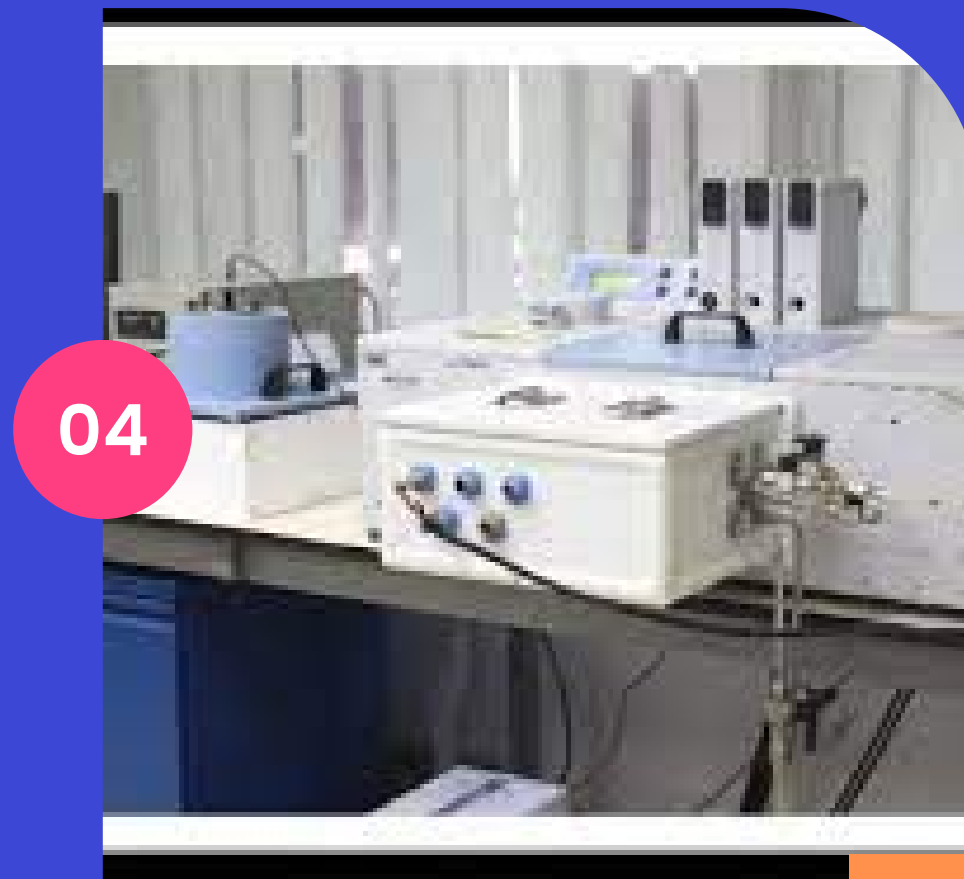

# IAS Facilities @NANOCAT

## A Brief Background About The Nanotechnology and Catalysis Research Centre (NANOCAT)

NANOCAT was established is to be a world leader in catalysis and nanotechnology coining sustainability and green technology. NANOCAT research thrust is deploying catalysis to support energy, chemical synthesis, environment pollution and global warming mitigation as well as designing smart materials as catalyst, sensor, nanocoating and nanocomposites. NANOCAT witnessed a pronounced explosion in its productivities in all aspects including numbers of postgraduate students, grant recieved, consutancy, publication, pattern/copyright and etc.

# UM Planetary Health Briefing

In line with the government's direction for a National Planetary Health Action Plan, we aim to:

- raise awareness about the power of and critical need for Planetary Health.
- inspire our community to create, restore, steward and conserve health ecosystems for a thriving human civilization.
- guide the education of our citizens, practitioners and professionals who are able and willing to address the complex Planetary Health challenges of our world today.

# UM Planetary Health Briefing cont'

Many of our best efforts today remained siloed, fragmented, or rivalrous, however this initiative will take all of us to achieve Planetary Health.

We envisage that Planetary Health education will contribute to the positive outcomes for the biosphere, overcoming the Planetary Health challenges before us.

We invite Policymakers, Politicians, Activists, Educators, Researchers, Librarians, Professionals, Administrators and Students as well as the public community to join us and contribute to the program.
